### CAREER OBJECTIVE

Since graduating from Can Tho University with major Information Technology, I have focused on Front-End Development and have established a solid foundation in web development. Subsequently, I have actively worked on expanding my skill set towards full-stack development. I have experience in building full-stack web applications using technologies such as PHP, ReactJS, Node.js, MongoDB, and NextJS, which has made me proficient in both front-end and back-end web development.

During my academic journey and professional experience, I have honed my skills by working on various external projects and projects within my company. In addition to my technical expertise, I also possess strong communication and teamwork skills, which I have developed through leadership roles and collaborative team projects.

I am eager to apply my skills and experience to a full-stack developer position and contribute to the growth of your organization.

### SKILLS

Programming Languages: HTML, CSS, Javascript, JQuery, Java, Python, PHP,...

Frameworks/Platforms: ReactJS, Nodejs, NextJS, Bootstrap, Tailwind css, Moodle, Rasa Chatbot

Datbase Management Systems: SQL Server, MySQL, Oracle, MongoDB

Others Skill: Github, Git, Docker

Soft Skill: English Communication, Decision making, Multi-tasking, Observation

### WORK EXPERIENCE

#### Senior Specialist - Digital Core Banking

May 2024 – Present

HO CHI MINH CITY DEVELOPMENT JOINT STOCK COMMERCIAL BANK

#### ❖ Project: Microservice API Development for FX, FA, and Custody Banking Systems

Transforming and modernizing critical financial systems using a Microservice Architecture to optimize performance, scalability, and integration capabilities for Foreign Exchange (FX) transfers, FA, and Custody Banking services.

Technology:

- Backend: Java Spring Boot
